Embracing Automation and Expert System

Welcoming Automation and Expert System to Make Best Use Of Effectiveness in 2025

As we come close to the year 2025, it is becoming progressively clear that automation and artificial intelligence (AI) are no more just lofty ideas and buzzwords, but concrete devices that can reinvent our performance and effectiveness. best Landscapers in Las Vegas Nevada. By welcoming these modern technologies, we can open unprecedented levels of efficiency and simplify our tasks for the future.

Automation takes control of repetitive jobs, freeing up our time to focus on higher-level responsibilities. As an example, in business context, automation devices can handle organizing, customer support, data entry, and many various other management jobs. The outcome is not just lowered labor costs yet likewise raised performance as staff members can devote their energy and time to more calculated, innovative and value-adding tasks.

Artificial intelligence increases automation to an entire new degree. AI systems can learn, adapt, and choose separately, making them not simply tools, but allies in our pursuit for efficiency. For instance, AI algorithms can evaluate large amounts of information much quicker and precisely than any type of human, offering companies with beneficial insights and predictions. This enables more enlightened decision-making, optimized procedures, and improved consumer experiences.

Moreover, the integration of AI and automation can create intelligent automation systems with the ability of self-improvement. These systems can learn from their errors and continually optimize their procedures, bring about an ever-increasing effectiveness.

However, accepting automation and AI does not indicate getting rid of the human component. These innovations are devices that are implied to augment human abilities, not change them. They can take control of the mundane tasks and provide us with even more room to use our imagination, critical reasoning, and emotional knowledge – skills that are uniquely human and irreplaceable.

As we browse this interesting era of technical development, our success will certainly hinge on our capacity to

Leveraging Virtual and Increased Fact for Performance

Leveraging Virtual and Enhanced Reality for Efficiency in 2025

As we stand on the verge of a technological revolution, the development of Online Fact (VIRTUAL REALITY) and Enhanced Truth (AR) guarantees to redefine our understanding of effectiveness and performance. By 2025, leveraging these technologies will certainly be critical in taking full advantage of effectiveness across different sectors, from company and sector to education and healthcare.

Digital Reality, with its immersive, three-dimensional user interface, will change the method we function. With virtual reality, physical restrictions end up being unnecessary. Virtual reality headsets can transport us to virtual workplaces, enabling remote job without shedding the advantages of a physical work environment. Meetings can happen in online rooms, removing the need for traveling and its connected costs and time.

Moreover, training and development, frequently a resource-intensive procedure, can be transformed by virtual reality. Facility treatments, be it in medical surgical treatment or aircraft maintenance, can be practiced in a regulated and risk-free digital atmosphere. This not just boosts the finding out experience yet additionally dramatically lowers the cost of training.

Enhanced Reality, on the various other hand, overlays electronic info onto the real world. In a specialist context, this indicates that data and analytics can be accessed and cooperated real-time. Picture a technician who can see the blueprint of a maker overlaid on the actual equipment, or a seller that can picture the sales data on the shop floor itself. This assimilation of information into our instant environment will simplify decision-making procedures, thereby enhancing effectiveness.

In 2025, it is anticipated that AR and VR will be essential to smart home systems, optimizing power use, and automating house jobs. From pre-heating your oven on your commute home to readjusting lights based on ambient conditions, these innovations will certainly make our homes much more energy-efficient and our lives more convenient.

However, to make best use of performance with VR and AR, it is important to deal with the challenges that come with these technologies. Concerns about personal privacy, information safety and security, and the digital divide has to be resolved. Furthermore, the capacity for over-dependence on innovation and the ensuing loss of human touch in communications is a significant issue.

In conclusion, by 2025, virtual reality and AR will have the potential to redefine effectiveness in our individual and specialist lives. Leveraging these innovations will call for a cautious balance of advancement and regulation. Yet with the ideal technique, the virtual reality and AR transformation can lead us right into a future where performance is not just about doing more with less, but regarding improving the quality of our job and our lives.

Adapting to the Future of Remote Work

Adjusting to the Future of Remote Job: Just How to Maximize Your Effectiveness in 2025

As we look towards the future, it is evident that the world of job is transforming. The conventional office setting is making way for a more flexible, remote working plan. By 2025, it is anticipated that a substantial portion of the global workforce will certainly be functioning remotely, either permanent or part-time. This shift supplies countless benefits, including increased adaptability and the opportunity for a much healthier work-life equilibrium. However, it likewise provides distinct difficulties that need efficient adjustment to make best use of performance and success.

In adapting to the future of remote job, it is essential to very first welcome the technical innovations at our disposal. By 2025, we expect to see additional growths in interaction, cooperation, and task monitoring devices. These technological innovations will certainly help to bridge the gap produced by physical range, ensuring teams can collaborate effortlessly regardless of their location. For that reason, staying abreast with these technological shifts and integrating them into our everyday operations is extremely important.

1. emergency landscapers Las Vegas NV
2. BBQ and outdoor kitchen landscaping Las Vegas
3. professional landscapers Las Vegas
4. low-maintenance residential landscapes Las Vegas
5. best landscaping companies in Las Vegas

Second of all, we need to cultivate the right frame of mind. Remote work is not nearly working from home; its regarding being able to function effectively and successfully in a non-traditional atmosphere. This needs self-control, inspiration, and excellent time administration abilities. Its about creating the capacity to independently handle your jobs and provide within target dates.

Third, it is important to develop clear interaction channels and protocols. With team members dispersed throughout various places and potentially time areas, clear and concise interaction is

vital. Regular check-ins, responses sessions and open lines of communication can aid to make sure everybody gets on the same page and functioning in the direction of the very same goals.

In 2025, we could also see a surge in the idea of coworking areas. These shared workspaces can provide the benefits of a traditional workplace atmosphere-- like face-to-face interaction and a sense of area-- without the rigidity. Utilizing such rooms could aid to combat feelings of isolation or interference that some remote workers might experience.

Finally, its concerning attaining a work-life equilibrium. One of the greatest challenges of remote job is the blurring of boundaries in between personal and professional life. It is crucial to produce clear delineations between job and personal time to guarantee both rounds of life are supported and neither is disregarded.

In conclusion, as we adjust to the future of remote work, it is important to welcome the technical improvements that promote this shift, grow the ideal way of thinking, develop

Investing in Continuous Understanding and Skill Growth

Buying Continual Understanding and Skill Growth: A Secret to Optimize Your Efficiency in 2025

As we remain to browse with the 21st century, the dynamics of the global economy and the workplace continue to progress at an unprecedented speed. This fast adjustment, fueled by technical innovations and digitization, demands people to continuously upgrade their abilities and expertise. To maximize effectiveness and stay affordable in 2025 and beyond, investing in continuous learning and ability development is no more an option, however a requirement.

Continuous knowing is the procedure of regularly acquiring and updating all kinds of abilities, knowledge, and understandings from both official and casual understanding experiences to promote personal and expert growth. It incorporates a variety of tasks, including analysis,

participating in workshops and seminars, joining online training courses, and going after advanced degrees.

In the context of 2025, numerous factors make continuous understanding and ability growth vital. First of all, the quick improvement of technology, such as Artificial Intelligence (AI), robotics, and machine learning, is interrupting standard work functions and developing brand-new ones. To equal these changes, one must continuously upgrade their skills and expertise.

Secondly, the business landscape in 2025 is expected to be much more affordable and volatile. Constant learning makes it possible for people to adapt to these adjustments by equipping them with the necessary skills to deal with complicated troubles, make informed decisions, and introduce.

Finally, the COVID-19 pandemic has actually underlined the value of adaptability and durability, which can be cultivated through continual knowing. The pandemic has actually accelerated the change to remote work and electronic platforms, necessitating proficiency in digital abilities and the ability to swiftly adjust to new workplace.

As the nature of work evolves, soft skills such as emotional knowledge, critical thinking, and creative thinking end up being similarly important. Continual learning not only assists in boosting these skills however additionally promotes a growth state of mind. This way of thinking, identified by the idea that abilities and intelligence can be developed, is vital for prospering in the vibrant world of 2025.

In conclusion, purchasing continuous understanding and ability growth is essential for taking full advantage of performance in 2025. It gears up people with the essential technological and soft skills, promotes adaptability and durability, and fosters a growth frame of mind. In the middle of the hectic technical and financial changes, those that pick to be lifelong students will be much better positioned to seize chances and browse challenges in the future. The future comes from those who discover, unlearn, and relearn in a relentless cycle of personal

About Las Vegas

Las Vegas, informally referred to as Las Vegas, is the most populated city in the U. S. state of Nevada and the county seat of Clark Area. The Las Vegas Valley city is the largest within the greater Mojave Desert, and second-largest in the Southwestern USA. According to the USA Census Bureau, the city had 641,903 residents in 2020, with an urban population of 2,227,053, making it the 24th-most heavily populated city in the United States. Las Vegas is a worldwide renowned major resort city, understood mostly for its gaming, shopping, fine dining, amusement, and nightlife. It has most venues fixated midtown Las Vegas and even more to the Las Vegas Strip, located outside city limits in the unincorporated towns of Heaven and Winchester. The Las Vegas Valley functions as the leading financial, commercial, and social facility in Nevada. Las Vegas was worked out in 1905 and formally included in 1911. At the close of the 20th century, it was the most inhabited North American city started within that century (a comparable distinction was gained by Chicago in the 19th century). Population development has sped up because the 1960s and into the 21st century, and between 1990 and 2000 the population boosted by 85. 2%. The city costs itself as the Enjoyment Resources of the World, and is popular for its glamorous and huge casino-hotels. As of 2023, Las Vegas attracts over 40. 8 million site visitors yearly, making it among the most visited cities in the USA and constantly ranking amongst the globe's leading tourist locations. It is the third most preferred U. S. destination for company conventions and an international leader in the friendliness industry. The city's resistance for countless types of grown-up enjoyment has actually made it the label "Wrong City", and has made it a prominent setup for movies, literary works, television programs, commercials and video.

The **Las Vegas Valley** is a major metropolitan area in the southern part of the U.S. state of Nevada, and the second largest in the Southwestern United States. The state's largest urban agglomeration, the **Las Vegas Metropolitan Statistical Area** is coextensive since 2003 with Clark County, Nevada.[2] The Valley is largely defined by the Las Vegas Valley land formation, a 600 sq mi (1,600 km²) basin area surrounded by mountains to the north, south, east and west of the metropolitan area. The Valley is home to the three largest incorporated cities in Nevada: Las Vegas, Henderson and North Las Vegas.[3] Eleven unincorporated towns governed by the Clark County government are part of the Las Vegas Township and constitute the largest community in the state of Nevada.[4]

The names **Las Vegas** and **Vegas** are interchangeably used to indicate the Valley, the Strip, and the city, and as a brand by the Las Vegas Convention and Visitors Authority

to denominate the region.[5][6] The Valley is affectionately known as the **Ninth Island** by **Hawaii** natives and Las Vegans alike, in part due to the large number of people originally from Hawaii who live in and regularly travel to Las Vegas.[7]

Since the 1990s, the Las Vegas Valley has seen rapid growth, tripling its population from 741,459 in 1990 to 2,227,053 estimated in 2018, increasing to 2,421,685 in 2024.[8] The Las Vegas Valley remains one of the fastest growing metropolitan areas in the United States. In its relatively short history, it has established a diverse presence in international business, commerce, urban development, and entertainment, as well as one of the most visited tourist attractions destinations in the world. In 2014, a record-breaking 41 million people visited the Las Vegas area, producing a **gross metropolitan product** of more than \$100 billion.[9]

History

[edit]

Main article: **History of Las Vegas**

The first reported non-**Native American** visitor to the Las Vegas Valley was the **Mexican** scout **Rafael Rivera** in 1829.[10][11][12] Las Vegas was named by Mexicans in the **Antonio Armijo** party,[4] including Rivera, who used the water in the area while heading north and west along the **Old Spanish Trail** from Texas. In the 19th century, areas of the valley contained **artesian** wells that supported extensive green areas, or **meadows**, hence the name *Las Vegas* (*vegas* being Spanish for "meadows").[11]

The area was previously settled by **Mormon** farmers in 1854 and later became the site of a **United States Army** fort in 1864, beginning a long relationship between southern Nevada and the U.S. military. Since the 1930s, Las Vegas has generally been identified as a **gambling** center as well as a **resort destination**, primarily targeting adults.

Nellis Air Force Base is located in the northeast corner of the valley. The ranges that the Nellis pilots use and various other land areas used by various federal agencies, limit growth of the valley in terms of geographic area.

Businessman **Howard Hughes** arrived in the late 1960s and purchased many casino hotels, as well as television and radio stations in the area. Legitimate corporations began to purchase casino hotels as well, and **the mob** was run out by the federal government

over the next several years. The constant stream of tourist dollars from the hotels and casinos was augmented by a new source of federal money from the establishment of what is now **Nellis Air Force Base**. The influx of military personnel and casino job-hunters helped start a land building boom which is now leveling off.^[according to whom?]

The Las Vegas area remains one of the world's top entertainment destinations.^{[13][14]}

Boundaries

[edit]

The valley is contained in the Las Vegas Valley landform. This includes the cities of Las Vegas, North Las Vegas, and Henderson, and the unincorporated towns of **Summerlin South, Paradise, Spring Valley, Sunrise Manor, Enterprise, Winchester, and Whitney**.

The valley is located within the larger metropolitan area, as the metropolitan area covers all of Clark County including parts that do not fall within the valley.

The government of Clark County has an "Urban Planning Area" of Las Vegas. This definition is a roughly rectangular area, about 20 mi (32 km) from east to west and 30 miles (48 km) from north to south. Notable exclusions from the "Urban Planning Area" include **Red Rock, Blue Diamond, and Mount Charleston**.

The **Las Vegas Metropolitan Police Department** is the largest police department in the valley and the state and exercises jurisdiction in the entire county. There are approximately 3,000 police officers who cover the city of Las Vegas; unincorporated areas; the town of Laughlin, about 90 mi (140 km) from **Downtown Las Vegas**; and desert, park, and mountain areas within Clark County. The department does not exercise primary jurisdiction in areas with separate police forces such as North Las Vegas, Henderson, Boulder City, Nellis Air Force Base and the Paiute reservation.

The metropolitan area was created for the 1970 census when it only included Clark County. In 2000, the metropolitan area was changed to include **Nye County, Nevada, and Mohave County, Arizona**,^{[15][16][17]} but it later returned to only being Clark County.

The **Office of Management and Budget** has designated Clark County as the Las Vegas–Henderson–Paradise, NV Metropolitan Statistical Area.^[18] The **United States Census**

Bureau ranked the Las Vegas–Henderson–Paradise, NV Metropolitan Statistical Area as the **31st most populous metropolitan statistical area** of the United States as of July 1, 2012.^[19]

The Office of Management and Budget has further designated the Las Vegas–Henderson–Paradise, NV Metropolitan Statistical Area as a component of the more extensive **Las Vegas–Henderson, NV–AZ CSA**,^[18] the **27th most populous combined statistical area** and the **30th most populous primary statistical area** of the United States as of July 1, 2012.^{[19][20]}

Geography and environment

^[edit]

Las Vegas Valley viewed in **false color**, from 438 mi (705 km) by **TERRA** satellite. Grass-covered land, such as golf courses, appears in red. The picture bottom is just south of Sunset Road and the airport, the Spring Mountains on the west and Sunrise Mountain on the east.

Las Vegas at night in 2010

The Las Vegas Valley lies in the **Mojave Desert**. The valley in the northwest section is a northwest-by-southeast^[21] trending area, and trending parallel to Las Vegas Wash,

lies at the northeast of the [Spring Mountains massif](#).

[U.S. Route 95](#) leaves Las Vegas's northwest and goes northwesterly through the northwest valley section, with Las Vegas Wash about 2 miles (3 km)[\[22\]](#) northeast. U.S. 95 lies on the southwest perimeter of the valley bottomlands, and small [alluvial fan](#) areas from the northeast Spring Mountains border southwest.

A "distorted surface",[\[23\]](#) a [playa](#)-like region, occurs at the farthest northwest area, for about 15 to 18 miles (24 to 29 km), starting from [Nevada Route 157](#). At [Nevada Route 156](#), 10 miles (16 km) northwest, the distorted surface, bottom land turns north, a 6 miles (9.7 km) area in length and about 3 miles (4.8 km) wide. It lies at the south drainage section of the [Three Lakes Valley](#), where a [water divide](#) separates [Dog Bone Lake](#) in the valley's center from the southwest washes that drain into the Las Vegas Valley (upland Las Vegas Wash).

The [Corn Creek Dunes](#) lie about 5 miles (8.0 km) southwest of Route 156's intersection with U.S. 95, and they are slightly northeast of Las Vegas Wash.

The Las Vegas Valley is around 1,600 square miles (4,100 km²).[\[24\]](#) All perimeters, except the northwest, are foothills or mountain ranges, with all highway routes entering the foothills; this includes the [Interstate 15](#) to the southwest, as it climbs to [Jean Pass \(north\)](#), before traversing [Ivanpah Valley](#). Only the U.S. Route 95 northwest follows an actual valley. The northwest section, thus describes the entire landform as a central, and large valley with an attached feeder valley northwest, and in this case the northwest source, and actual course of the Las Vegas Wash.

The valley is a fault-bounded structural and hydrologic basin[\[25\]](#) made of alluvial-fan deposits. There are several aquifers contained within the valley including the Las Vegas Aquifer. These heavily depleted water sources exist at about 660–980 feet (200–300 m) in depth.[\[25\]](#) As of 1986, estimate show that the valley floor in [Downtown Las Vegas](#) has subsided by about 6.2 feet (1.9 m) and about 2.9 feet (0.88 m) along [The Strip](#) as a result of pumping from these aquifers.[\[26\]](#)

Climate

[edit]

The Las Vegas Valley lies in a relatively high–altitude portion of the Mojave Desert, with a subtropical hot-desert climate. The Valley generally averages less than 5 in (130 mm) of rain annually.[27] Daily daytime summer temperatures in July and August typically range from 100 °F (38 °C) to 110 °F (43 °C), while nights generally range from 72 °F (22 °C) to 80 °F (27 °C).[27] Very low humidity, however, tempers the effect of these temperatures, though dehydration, heat exhaustion, and sun stroke can occur after even a limited time outdoors in the summer. The interiors of automobiles often prove deadly to small children and pets during the summer and surfaces exposed to the sun can cause first- and second-degree burns to unprotected skin. July and August can also be marked by monsoon season, when moist winds from the Gulf of California soak much of the Southwestern United States. While not only raising humidity levels, these winds develop into dramatic desert thunderstorms that can sometimes cause flash flooding.

Winter days in metropolitan Las Vegas range from mild to quite chilly, and sunny most days; while winter itself is of short duration. Winter highs in December and January usually range from 52 °F (11 °C) to 60 °F (16 °C), while nighttime lows range from 34 °F (1 °C) to 42 °F (6 °C).[27] The mountains surrounding the valley are snow-covered during the winter season, but snow accumulation in the metropolitan area itself is uncommon. Every few years apart, however, Las Vegas does get a small measurable snowfall.

Spring and fall are generally dry and with hot, sunny days and cool nights.

Source: [\[28\]](#)[\[29\]](#)

Fault zones

[\[edit\]](#)

The valley is an active earthquake zone crossed by multiple fault and thrust lines. These include the 20-mile (32 km) long Frenchman Mountain Fault capable of a magnitude 7 event, Whitney Mesa Fault, Cashman Fault, Valley View Fault, Decatur Fault, Eglington Fault and the West Charleston Fault.[\[30\]](#)[\[31\]](#)[\[32\]](#)[\[33\]](#)

Air quality

[\[edit\]](#)

Having part of the region in a desert basin creates problems with **air quality**. From the dust the wind picks up, to the smog produced by vehicles, to the pollen in the air, the valley has several bad air days.

Pollen can be a major problem several weeks a year, with **counts** occasionally in the 70,000-plus range. Local governments are trying to control this by banning plants that produce the most pollen.

The dust problems usually happen on very windy days, so they tend to be short and seasonal. Full-fledged dust storms are rare.

Smog, on the other hand, gets worse when there is no wind to move the air out of the valley. Also, in winter it is possible for an **inversion** to form in the valley.

Since manufacturing is not a dominant industry of Las Vegas, and with Clark County working to control **air quality** problems, success has been shown over the years.

Water

[**edit**]

Lake Mead shown behind **Hoover Dam** on the **Colorado River**

The native **flora** does little to help the **soil** retain water. During the intense rains of **monsoon** season or (relatively) wet months of January and February, a network of dry natural channels, called washes or **arroyos**, carved into the valley floor allows water to flow down from the mountains and converge in the **Las Vegas Wash** which runs through the **Clark County Wetlands Park**. The wash system used to form a large natural wetlands which then flowed into the **Colorado River**, until the construction of **Hoover Dam** on the Colorado River led to the creation of Lake Mead. Further development in the 1980s and 1990s made **Lake Las Vegas**, which required directing the Las Vegas Wash into tunnels which run under Lake Las Vegas and into **Lake Mead**.

Nevada receives an allocation 300,000 acre-feet (370,000,000 m³) of water[34] each year from Lake Mead, with credits for water it returns to the lake. The allocations were made with the **Colorado River Compact** when Nevada had a much smaller population and very little agriculture. The allocations were also made during a wet string of years, which overstated the available water in the entire watershed. As a result, precipitation that is below normal for a few years can significantly affect the Colorado River reservoirs. The Las Vegas area uses most of this allocation with **Laughlin, Nevada** using most of the remaining allocation. In June 2007, the price of a cubic meter was 57 cents in Las Vegas.[35] Las Vegas gets around 90 percent of its water from Lake Mead.[36]

Early Vegas depended on the **aquifer** which fed the flowing springs supporting the meadows that gave the area its name, but the pumping of water from these caused a large drop in the water levels and ground subsidence over wide areas of the valley. Today, the aquifers are basically used to store water that is pumped from the lake during periods of low demand and pumped out during periods of high demand.

Urbanization

[[edit](#)]

The population doubling time in the greater metropolitan area was under ten years, since the early 1970s and the Las Vegas metropolitan area now has a population approaching three million people.^[8] This rapid population growth led to a significant **urbanization** of desert lands into industrial and commercial areas (see **suburbia**).

Economy

[[edit](#)]

Four-segment panorama of the Cosmopolitan, Bellagio, and Caesars Palace (left to right) from the Las Vegas Strip, across from the Bellagio fountains.

The driving economic force in Las Vegas is the **tourism industry**. The area has about 150,000 hotel rooms, more than any other city in the world.^[37] In the past, casinos and

celebrity shows were the two major attractions for the area. Now shopping, conventions, fine dining, and outdoor beauty ^[clarification needed] are also major forces in attracting tourist dollars.

Las Vegas serves as world headquarters for the world's largest Fortune 500 gaming company, MGM Resorts International.[38] Several companies involved in the manufacture of electronic gaming machines, such as slot machines, are located in the Las Vegas area. In the first decade of the 21st century, shopping and dining have become attractions of their own. Tourism marketing and promotion are handled by the Las Vegas Convention and Visitors Authority, a county-wide agency. Its annual Visitors Survey provides detailed information on visitor numbers, spending patterns, and resulting revenues.[39]

The Las Vegas Strip looking south at night

Exterior of the Palazzo hotel. A major part of the city economy is based on tourism including gambling and ultra-luxury hotels.

While Las Vegas has historically attracted high-stake gamblers from around the world, it is now facing tougher competition from the UK, Hong Kong and Macau (China), Eastern Europe and developing areas in the Middle East.[40]

Las Vegas has recently enjoyed a boom in population and tourism. The urban area has grown outward so quickly that it borders Bureau of Land Management holdings along its edges. This has led to an increase in land values such that medium- and high-density

development is occurring closer to the core. The [Chinatown of Las Vegas](#) was constructed in the early 1990s on Spring Mountain Road. Chinatown initially consisted of only one large shopping center complex, but the area was expanded with shopping centers that contain various Asian businesses. Over the past few years, retirees have been moving to the metro area, driving businesses that support them from housing to health care.

While the cost of housing spiked up over 40% in 2004, the lack of [business](#) and [income taxes](#) still makes Nevada an attractive place for many companies to relocate to or expand existing operations. Being a true twenty-four-hour city, [call centers](#) have always seemed to find Las Vegas a good place to hire workers who are accustomed to working at all hours.^{[\[citation needed\]](#)}

The [construction industry](#) accounts for a share of the economy in Las Vegas. Hotel casinos planned for the Strip can take years to build and employ thousands of workers. Developers discovered that there was demand for [high-end condominiums](#).^{[\[41\]](#)} By 2005, [more than 100 condominium buildings](#) were in various stages of development,^{[\[42\]](#)} however, in 2008, the construction industry went into a downturn due to the [Great Recession](#), though the industry has since seen a rebound.

In 2000, more than 21,000 new homes and 26,000 resale homes were purchased. In early 2005, there were 20 residential development projects of more than 300 acres (120 ha) each underway. During that same period, Las Vegas was regarded as the fastest-growing community in the [United States](#).

Other promising residential and office developments have begun construction around [Downtown Las Vegas](#). New condominium and high-rise hotel projects have changed the Las Vegas skyline dramatically in recent years. Many large high-rise projects are planned for Downtown Las Vegas, as well as the Las Vegas Strip.^{[\[43\]](#)}

Construction

^{[\[edit\]](#)}

See also: [List of tallest buildings in Las Vegas](#)

Construction on The Strip (2009)

Construction in Las Vegas is a major industry and quickly growing with the population. In March 2011, construction employed 40,700 people and is expected to grow with the recovering economy.^[44] Since the mega resorts that define Las Vegas today began going up in the early 1970s, construction has played a vital role in both commercial and non commercial developments. Cranes are a constant part of the Las Vegas Skyline. At any given time there are 300 new homes being constructed in Las Vegas.^[citation needed] In addition, in recent years ^[when?] Las Vegas has seen a spike in high-rise housing units. New suburban master planned communities are also becoming common in Las Vegas ever since **The Howard Hughes Corporation** began work on Summerlin, an upper-class community on the west side of the valley.

The massive **CityCenter** project, by **MGM Mirage**, broke ground on the Strip in 2006.^[45] It put a massive strain on the construction ability and workforce of the area due to number of laborers and amount of materials required. Because of this, prices of almost any construction project in Las Vegas doubled.^[citation needed] The project was completed in 2009 and includes multiple hotels and condominiums, as well as shopping and a casino. At a cost of \$8.5 billion, it is the most expensive privately funded construction project in U.S. history.^[46]

The Tropicana Hotel, opened in 1957, will be demolished in April 2025 in order to create a new baseball stadium.^[47] **Bally's Corporation**, the owner of the hotel, indicated that upon completion of the stadium it would further develop the site.^[48]

Housing

^[edit]

Traditionally, housing consisted primarily of **single-family detached homes**. **Slab-on-grade foundations** are the common base for residential buildings in the valley. **Apartments** generally were two-story buildings. Until the 1990s, there were exceptions, but they were few and far between. In the 1990s, **Turnberry Associates** constructed the first high rise condominium towers. Prior to this, there were only a handful of mid-rise multi-family buildings. By the mid-2000s, there was a major move into high rise condominiums towers, which affected the region's **skyline** around the Strip.

The Las Vegas Valley is home to various suburban **master planned communities** that include extensive recreational amenities such as lakes, golf courses, parks, bike paths and jogging trails. Planned communities in the valley include **Aliante**, **Anthem**, Cadence, Centennial Hills, **Green Valley**, Inspirada, **Lake Las Vegas**, **The Lakes**, **Mountain's Edge**, Peccole Ranch, Providence, **Rhodes Ranch**, **Seven Hills**, Skye Canyon, **Southern Highlands**, and **Summerlin**.

Technology companies

[**edit**]

A full-scale mockup of Bigelow Aerospace's Space Station Alpha inside their facility in **North Las Vegas**

Some technology companies have either relocated to Las Vegas or were created there. For various reasons, Las Vegas has had a high concentration of technology companies in electronic gaming and telecommunications industries. [**further explanation needed**]

Some current technology companies in southern Nevada include: **Bigelow Aerospace**, **Petroglyph**, **Switch Communications**, US Support LLC, Fanatics, and **Zappos**.

In 2015, **Electric vehicle** startup **Faraday Future** has chosen North Las Vegas's Apex Industrial Park for its \$1 billion car factory.

Companies that originally were formed in the Las Vegas region, but have since sold or relocated include **Westwood Studios** (sold to **Electronic Arts**), **Systems Research & Development** (Sold to **IBM**), **Yellowpages.com** (Sold to **BellSouth** and **SBC**), and MPower Communications.

Tourism

[[edit](#)]

The **Welcome to Fabulous Las Vegas** sign

The major attractions in the Las Vegas Valley are the hotel/casinos. These hotels generally consist of large gambling areas, theaters for live performances, shopping, bars/clubs, and several restaurants and cafes. There are clusters of large hotel/casinos located in both **downtown Las Vegas** and on the **Las Vegas Strip**. The largest hotels are mainly located on the Strip,^[49] which is a four-mile section of Las Vegas Boulevard. These hotels provide thousands of rooms of various sizes. Fifteen of the world's 30 largest hotels by room count are on the Strip, with a total of over 62,000 rooms. There are many hotel/casinos in the city's downtown area as well, which was the original focal point of the Valley's gaming industry. Several hotel/casinos ranging from large to small are also located around the city and metro area. Many of the largest hotel, casino, and resort properties in the world are located on the Las Vegas Strip.

The valley's casinos can be grouped into several locations. The largest is the Las Vegas Strip, followed by Downtown Las Vegas, and then the smaller **Boulder Strip**. There are also several one-off single standing hotel/casinos dotted around the valley and the metro area.

In 2011, the majority of tourists arrived from the western states (55%) with 31% from California alone. Approximately 16% of tourists arrived from outside North America.^[50]

Shopping

[edit]

Chanel and **Giorgio Armani** boutiques at Via Bellagio

Las Vegas has expanded its attractiveness to visitors by offering both affordable and high-end merchandise in many shops and shopping malls. Many hotels on the Las Vegas Strip also have adjacent shopping malls, giving the Las Vegas area the highest concentration of shopping malls in any four mile stretch of road. In addition to the malls on the Strip, there are several outlying malls in the City of Las Vegas, Henderson, and the surrounding area. The **monorail**, lying somewhat east of the Strip, facilitates north-south travel, including stations at several casinos and the **Las Vegas Convention Center**.

Major shopping attractions include:

- **Bonanza Gift Shop**
- **The Boulevard Mall**
- **Broadacres Marketplace**^[a]
- **The Shops at Crystals**

- Downtown Summerlin
- Galleria at Sunset
- Grand Canal Shoppes
- Fantastic Indoor Swap Meet**[b]**
- Fashion Show Mall
- The Forum Shops at Caesars
- Las Vegas Premium Outlets

Conventions

[edit]

Las Vegas holds many of the world's largest conventions each year, including **CES**, **SEMA**, and **Conexpo**. The **Las Vegas Convention Center** is one of the largest in the world with 1,940,631 sq ft (180,290.5 m²) of exhibit space. These events bring in an estimated \$7.4 billion of revenue to the city each year, and host over 5 million attendees.**[60][61]**

Culture and the arts

[[edit](#)]

Image not found or type unknown

The [Smith Center for the Performing Arts](#) located in downtown Las Vegas

Image not found or type unknown

Reynolds Hall main stage at The Smith Center

The "First Friday" celebration, held on the first Friday of each month, exhibits the works of local artists and musicians in an area just south of downtown. The city is home to an extensive [Downtown Arts District](#) which hosts numerous galleries, film festivals, and events.[62]

The [Southern Nevada Zoological-Botanical Park](#), also known as the [Las Vegas Zoo](#), used to exhibit over 150 species of animals and plants. The Zoo closed its doors in September 2013.[63]

The [Shark Reef Aquarium](#) at Mandalay Bay is the only aquarium that is accredited by the [Association of Zoos and Aquariums](#) in the state of Nevada. It features over 2,000 animals and 1,200 species in 1.6 million gallons of seawater.

The \$485 million [Smith Center for the Performing Arts](#) is located downtown in [Symphony Park](#). The center is appropriate for Broadway shows and other major touring attractions as well as orchestral, opera, choir, jazz, and dance performances.

[Bellagio Gallery of Fine Art](#) is a facility presenting high-quality art exhibitions from major national and international museums. Past exhibits have included the works of [Andy Warhol](#), [Alexander Calder](#), and [Peter Carl Fabergé](#). A self-guided audio tour is also offered.

The [Las Vegas Natural History Museum](#) features robot dinosaurs, live fish, and more than 26 species of preserved animals. There are several "hands-on" areas where animals can be petted.

The [Atomic Testing Museum](#), affiliated with the [Smithsonian Institution](#), houses artifacts from the [Nevada Test Site](#) and records the dramatic history of the atomic age through a series of interactive modules, timelines, films, and actual equipment and gadgets from the site.

In 2019, [The New York Times](#) noted that there was a "burgeoning literary scene" at Las Vegas centered around the Black Mountain Institute, a literature organization at the [University of Nevada, Las Vegas](#), and its literary magazine, [The Believer](#).[64]

The valley is home to numerous other art galleries, orchestras, ballets, theaters, sculptures, and museums as well.

Media

[[edit](#)]

Newspapers

[[edit](#)]

- ***Las Vegas Review-Journal***, the area's largest daily newspaper, is published every morning. It was formed in 1909 but has roots back to 1905. It is the largest

newspaper in Nevada and is ranked as one of the top 25 newspapers in the United States by circulation. In 2000, the Review–Journal installed the largest newspaper printing press in the world. It cost \$40 million, weighs 910 tons and consists of 16 towers.[66] The newspaper was owned by casino magnate [Sheldon Adelson](#), who purchased the newspaper for \$140 million in December 2015. In 2018, the Review–Journal received the [Sigma Delta Chi Award](#) from the [Society of Professional Journalists](#) for reporting the [2017 Las Vegas shooting](#). In 2018, Editor and Publisher magazine named the Review–Journal as one of 10 newspapers in the United States "doing it right".[67]

- [Las Vegas Sun](#) is a daily 8–page newspaper distributed as a section of the Review–Journal. It is owned by the Greenspun family and is affiliated with [Greenspun Media Group](#). The Sun was founded in 1950 and in 1989 entered into a [Joint Operating Agreement](#) with the Review–Journal, which runs through 2040. It has been described as "politically liberal." [68] In 2009, the Sun was awarded a [Pulitzer Prize for Public Service](#) for coverage of the high death rate of construction workers on the Las Vegas Strip amid lax enforcement of regulations.
- [Las Vegas Weekly](#) is a free [alternative weekly](#) newspaper based in [Henderson, Nevada](#). It covers Las Vegas arts, entertainment, culture and news. Las Vegas Weekly was founded in 1992 and is published by Greenspun Media Group.

Broadcast

[[edit](#)]

Las Vegas is served by 22 television and 46 radio stations. The area is also served by two NOAA Weather Radio transmitters (162.55 MHz located in Boulder City and 162.40 MHz located on [Mount Potosi](#)).

Transportation

[[edit](#)]

The [Las Vegas Monorail](#) pulling into the [Sahara](#) station in Paradise

[Harry Reid International Airport](#) Terminal 3

A **JetBlue Airbus A320** taking off from Harry Reid International Airport

Harry Reid International Airport (LAS) provides commercial flights into the Las Vegas Valley. The airport serves domestic, international and cargo flights, as well as some private aircraft. **General aviation** traffic, however, will typically use the much smaller **North Las Vegas Airport** or **other airfields** in the county. Public transportation is provided by **RTC Transit**. Numerous bus routes cover Las Vegas, Henderson, North Las Vegas and other suburban areas.

The **Las Vegas Monorail** runs from **MGM Grand Las Vegas** at the south end of the Strip to the **Sahara Las Vegas** at the north end of the Strip. The street **numbering system** is divided by the following streets:

- Westcliff Drive, **US 95**, **Fremont Street** and **Charleston Boulevard** divide the north–south block numbers from west to east.
- **Las Vegas Boulevard** divides the east–west streets from the Las Vegas Strip to near the Stratosphere, then Main Street becomes the dividing line from the Stratosphere to the North Las Vegas border, after which the Goldfield Street alignment officially divides east and west.
- On the east side of Las Vegas, block numbers between Charleston Boulevard and Washington Avenue are different along Nellis Boulevard, which is the eastern border of the city limits.
- All city street signs begin with a *N*, *S*, *W* or *E* designation.

Until 1997, the **Amtrak Desert Wind** train service ran through Las Vegas using the **Union Pacific Railroad** (UP) rails that run through the city; Amtrak service to Las Vegas has since been replaced by Amtrak's Thruway Motorcoach bus service. Plans to restore Los Angeles to Las Vegas Amtrak service using a **Talgo** train have been discussed but no plan for a replacement has been implemented. The Las Vegas Amtrak station was located in the **Plaza Hotel**. It had the distinction of being the only train station located in a casino.

Airports

[**edit**]

- Henderson Executive Airport
- Ivanpah Valley Airport (planned)
- Harry Reid International Airport
- North Las Vegas Airport

Rail and bus

[[edit](#)]

While the Las Vegas area does not have any [passenger rail](#) service, [Brightline West](#) intends to revive [passenger trains](#) with a [high-speed train](#) between the [Las Vegas station](#) and the [Rancho Cucamonga station](#) in [Greater Los Angeles](#).

Las Vegas receives about 30 [freight trains](#) per day as of 2004, and serves as a district crew change point, requiring all trains to stop in downtown. Freight traffic was 179,284 cars in 2004.^[69]

Roads

[edit]

Las Vegas Boulevard looking south from the Stratosphere

Two major freeways—[Interstate 15](#) and [Interstate 11](#) (including [US 93](#) and [US 95](#))—cross in downtown Las Vegas. I-15 connects Las Vegas to Los Angeles and [San Diego](#), and heads northeast to [Salt Lake City](#) and beyond. I-11 goes northwest to the [Las Vegas Paiute Indian Reservation](#) and southeast to [Henderson](#), bypassing downtown [Boulder City](#) just to the south, and then to the [Mike O'Callaghan–Pat Tillman Memorial Bridge](#) over the [Colorado River](#), from there [U.S. Route 93](#) continues towards [Phoenix, Arizona](#). I-11 will eventually be the connection from [Nogales, Arizona](#) to the [Reno](#) and [Sparks](#) vicinity of either [Fernley](#) or at the Reno Spaghetti Bowl in Reno when completed. US 95 connects the city to northwestern Nevada, including [Carson City](#) (the state capitol) and Reno. US 93 splits from I-15 northeast of Las Vegas and goes north through the northeastern part of the state, serving [Ely](#) and [Wells](#) and US 95 heads south from I-11 and US 93 in Boulder City through far southeastern California. A three-quarters of the [Las Vegas Beltway](#) has been built, consisting of Interstate 215 on the south and Clark County 215 on the west and north. Other radial routes include [SR 160](#) to [Pahrump](#) and

SR 147 and SR 564 (former SR 146) to Lake Mead.

With the notable exceptions of Las Vegas Boulevard, Boulder Highway and Tonopah Highway (better known as the northern part of Rancho Drive), the majority of surface streets outside downtown Las Vegas are laid out along Public Land Survey System section lines. Many are maintained, in part, by the Nevada Department of Transportation (NDOT) as state highways.

Fuel

[[edit](#)]

The Las Vegas area is dependent on imported gasoline, diesel and aviation fuel as is most of Nevada, which has only one refinery. The region is dependent on the [Calnev Pipeline](#) and [Unev pipeline](#) as its two main sources of supply. Limited diesel is delivered to a dedicated terminal in North Las Vegas by rail. Diversified supply was provided by the completion of construction on the Unev pipeline in 2011 and its full operational status in 2012.

Electricity

[[edit](#)]

About 25% of the electric power from Hoover Dam goes to Nevada,[\[71\]](#) and about 70% of power to Southern Nevada comes from natural gas fired power stations.[\[72\]](#)

Sports

[[edit](#)]

Recreation

[edit]

Las Vegas has many natural outdoor recreational options.

There are several multi-use trail systems within the valley operated by multiple organizations. The [River Mountains Loop Trail](#) is a 35-mile-long (56 km) trail that connects the west side of the valley with Hoover Dam and Lake Mead.[73] [Summerlin](#) offers more than 150 miles of award-winning trails within the 22,500-acre (9,100 ha) community.[74] There are also the 3-mile (4.8 km) Angel Park Trail, Bonanza Trail, and the county's Flamingo Arroyo Trail,[75] I-215 West Beltway Trail (5 miles (8.0 km)), I-215 East Beltway Trail (4 miles (6.4 km)), Tropicana/Flamingo Washes Trail and the Western Trails Park Area Equestrian Trails (4 miles).[76][77]

Sunset Park at dusk

The Las Vegas Valley also hosts world class mountain biking including [Bootleg Canyon Mountain Bike Park](#) located in Boulder City which boasts itself as one of the International Mountain Biking Association's "epic rides".^[78]

Education

[\[edit\]](#)

Primary and secondary

[\[edit\]](#)

The [Clark County School District](#) operates all of the public primary and secondary schools in the county with the exception of 37 sponsored public charter schools.

Selected private schools

[Alexander Dawson School](#)

[Bishop Gorman High School](#)

Las Vegas,^[a] colloquially referred to as **Vegas**, is the most populous city in the U.S. state of Nevada and the county seat of Clark County. The Las Vegas Valley metropolitan area is the largest within the greater Mojave Desert, and second-largest in the Southwestern United States. According to the United States Census Bureau, the city had 641,903 residents in 2020,^[9] with a metropolitan population of 2,227,053,^[10] making it the 24th-most populous city in the United States. Las Vegas is an internationally renowned major resort city, known primarily for its gambling, shopping, fine dining, entertainment, and nightlife. It has most venues centered on downtown Las Vegas and more to the Las Vegas Strip, located outside city limits in the unincorporated towns of Paradise and Winchester. The Las Vegas Valley serves as the leading financial, commercial, and cultural center in Nevada.

Las Vegas was settled in 1905 and officially incorporated in 1911.^[11] At the close of the 20th century, it was the most populated North American city founded within that century (a similar distinction was earned by Chicago in the 19th century). Population growth has accelerated since the 1960s and into the 21st century, and between 1990 and 2000 the population increased by 85.2%.

The city bills itself as the Entertainment Capital of the World, and is famous for its luxurious and large casino-hotels. As of 2023, Las Vegas attracts over 40.8 million visitors annually,^[12] making it one of the most visited cities in the United States and consistently ranking among the world's top tourist destinations.^{[13][14]} It is the third most popular U.S. destination for business conventions^[15] and a global leader in the hospitality industry.^[16] The city's tolerance for numerous forms of adult entertainment

has earned it the nickname "[Sin City](#)",^[17] and has made it a popular [setting for films](#), literature, [television programs](#), commercials and music videos.

Toponymy

[\[edit\]](#)

In 1829, Mexican trader and explorer [Antonio Armijo](#) led a group consisting of 60 men and 100 mules along the [Old Spanish Trail](#) from modern day New Mexico to California. Along the way, the group stopped in what would become Las Vegas and noted its natural water sources, now referred to as the [Las Vegas Springs](#), which supported extensive vegetation such as grasses and [mesquite trees](#). The springs were a significant natural feature in the valley, with streams that supported a meadow ecosystem. This region served as the winter residence for the [Southern Paiute](#) people, who utilized the area's resources before moving to higher elevations during the summer months. The Spanish "las vegas" or "the meadows" (more precisely, lower land near a river) in English, was applied to describe the fertile lowlands near the springs. Over time, the name began to refer to the populated settlement.^{[18][19][20]}

History

Southern **Paiutes** at **Moapa** wearing traditional Paiute basket hats with Paiute cradleboard and rabbit robe

Nomadic **Paleo-Indians** traveled to the Las Vegas area 10,000 years ago, leaving behind **petroglyphs**. **Ancient Puebloan** and **Paiute** tribes followed at least 2,000 years ago.[21]

A young **Mexican** scout named **Rafael Rivera** is credited as the first non-**Native American** to encounter the valley, in 1829.[22] Trader **Antonio Armijo** led a 60-man party along the **Spanish Trail** to **Los Angeles**, California, in 1829.[23][24] In 1844, **John C. Frémont** arrived, and his writings helped lure pioneers to the area. Downtown Las Vegas's Fremont Street is named after him.

Eleven years later, members of **the Church of Jesus Christ of Latter-day Saints** chose Las Vegas as the site to build a fort halfway between **Salt Lake City** and Los Angeles, where they would travel to gather supplies. The fort was abandoned several years afterward. The remainder of this **Old Mormon Fort** can still be seen at the intersection of Las Vegas Boulevard and Washington Avenue.

Las Vegas was founded as a city in 1905, when 110 acres (45 ha) of land adjacent to the **Union Pacific Railroad** tracks were auctioned in what would become the downtown area. In 1911, Las Vegas was incorporated as a city.[25]

Golden Nugget and **Pioneer Club** along **Fremont Street** in 1952

The year 1931 was pivotal for Las Vegas. At that time, Nevada legalized casino gambling [26] and reduced residency requirements for divorce to six weeks.[27] This year also witnessed the beginning of construction of the tunnels of nearby **Hoover Dam**. The influx of construction workers and their families helped Las Vegas avoid economic calamity during the **Great Depression**. The construction work was completed in 1935.

In late 1941, **Las Vegas Army Airfield** was established. Renamed **Nellis Air Force Base** in 1950, it is now home to the **United States Air Force Thunderbirds** aerobatic team.[28]

Following World War II, lavishly decorated hotels, gambling casinos, and big-name entertainment became synonymous with Las Vegas.

This view of downtown Las Vegas shows a **mushroom cloud** in the background. Scenes such as this were typical during the 1950s. From 1951 to 1962, the government conducted 100 atmospheric tests at the nearby **Nevada Test Site**.^[29]

In 1951, **nuclear weapons testing** began at the **Nevada Test Site**, 65 miles (105 km) northwest of Las Vegas. During this time, the city was nicknamed the "**Atomic City**." Residents and visitors were able to witness the mushroom clouds (and were exposed to the fallout) until 1963 when the **Partial Nuclear Test Ban Treaty** required that nuclear tests be moved underground.^[29]

In 1955, the **Moulin Rouge Hotel** opened and became the first racially integrated casino-hotel in Las Vegas.

Fremont Street in the late 1960s

During the 1960s, corporations and business tycoons such as **Howard Hughes** were building and buying hotel-casino properties. Gambling was referred to as "gaming," which transitioned it into a legitimate business. ***Learning from Las Vegas***, published during this era, asked architects to take inspiration from the city's highly decorated buildings, helping to start the **postmodern architecture** movement.

In 1995, the [Fremont Street Experience](#) opened in Las Vegas's downtown area. This canopied five-block area features 12.5 million LED lights and 550,000 watts of sound from dusk until midnight during shows held at the top of each hour.

Due to the realization of many revitalization efforts, 2012 was dubbed "The Year of Downtown." Projects worth hundreds of millions of dollars made their debut at this time, including the [Smith Center for the Performing Arts](#), the [Discovery Children's Museum](#), the [Mob Museum](#), the [Neon Museum](#), a new [City Hall](#) complex, and renovations for a new [Zappos.com](#) corporate headquarters in the [old City Hall](#) building.[\[30\]](#)[\[31\]](#)

Geography

[\[edit\]](#)

Astronaut photograph of Las Vegas at night

[Downtown Las Vegas](#) with [Red Rock Canyon](#) in the background

Las Vegas is situated in a [basin](#) on the floor of the [Mojave Desert](#),[\[32\]](#) and is surrounded by mountain ranges. Much of the landscape is rocky and arid, with desert vegetation and wildlife. It can be subjected to torrential flash floods, although much has been done to mitigate the effects of flash floods through improved drainage systems.[\[33\]](#)

The city's elevation is approximately 2,030 ft (620 m) above sea level, though the surrounding peaks reach elevations of over 10,000 feet (3,000 m) and act as barriers to the strong flow of moisture from the surrounding area. According to the [United States Census Bureau](#), the city has an area of 135.86 sq mi (351.9 km²), of which 135.81 sq mi (351.7 km²) is land and 0.05 sq mi (0.13 km²) (0.03%) is water.

After Alaska and California, Nevada is the third most seismically active state in the U.S. It has been estimated by the United States Geological Survey (USGS) that over the next 50 years, there is a 10–20% chance of an M6.0 or greater earthquake occurring within 50 km (31 mi) of Las Vegas.[\[34\]](#)

Within the city are many lawns, trees, and other greenery. Due to water resource issues, there has been a movement to encourage [xeriscapes](#). Another part of conservation efforts is scheduled watering days for residential landscaping. A [U.S. Environmental Protection Agency](#) grant in 2008 funded a program that analyzed and forecast growth and environmental effects through 2019.[\[35\]](#)

Climate

[\[edit\]](#)

Desert scene at the [Red Rock Canyon National Conservation Area](#) in the Las Vegas area

Spring flowers at the Red Rock Canyon National Conservation Area in the Las Vegas area

Las Vegas has a **subtropical hot desert climate** (**Köppen climate classification**: *BWh*, **Trewartha climate classification** *BWhk*), typical of the **Mojave Desert** in which it lies. This climate is typified by long, extremely hot summers; warm transitional seasons; and short winters with mild days and cool nights. There is abundant sunshine throughout the year, with an average of 310 sunny days and bright sunshine during 86% of all daylight hours.[36][37] Rainfall is scarce, with an average of 4.2 in (110 mm) dispersed between roughly 26 total rainy days per year.[38] Las Vegas is among the sunniest, driest, and least humid locations in North America, with exceptionally low dew points and humidity that sometimes remains below 10%.[39]

The summer months of June through September are extremely hot, though moderated by the low humidity levels. July is the hottest month, with an average daytime high of 104.5 °F (40.3 °C). On average, 137 days per year reach or exceed 90 °F (32 °C), of which 78 days reach 100 °F (38 °C) and 10 days reach 110 °F (43 °C). During the peak intensity of summer, overnight lows frequently remain above 80 °F (27 °C), and occasionally above 85 °F (29 °C).[36]

While most summer days are consistently hot, dry, and cloudless, the **North American Monsoon** sporadically interrupts this pattern and brings more cloud cover, thunderstorms, lightning, increased humidity, and brief spells of heavy rain. Potential monsoons affect Las Vegas between July and August. Summer in Las Vegas is marked by significant **diurnal temperature variation**. While less extreme than other parts of the state, nighttime lows in Las Vegas are often 30 °F (16.7 °C) or more lower than daytime highs.[40] The average hottest night of the year is 90 °F (32 °C). The all-time record is at 95 °F (35 °C).[36]

Las Vegas winters are relatively short, with typically mild daytime temperatures and chilly nights. Sunshine is abundant in all seasons. December is both the year's coolest and cloudiest month, with an average daytime high of 56.9 °F (13.8 °C) and sunshine occurring during 78% of its daylight hours. Winter evenings are defined by clear skies and swift drops in temperature after sunset, with overnight minima averaging around 40 °F (4.4 °C) in December and January. Owing to its elevation that ranges from 2,000 to 3,000 feet (610 to 910 m), Las Vegas experiences markedly cooler winters than other

areas of the [Mojave Desert](#) and the adjacent [Sonoran Desert](#) that are closer to sea level. The city records freezing temperatures an average of 10 nights per winter. It is exceptionally rare for temperatures to reach or fall below 25 °F (−4 °C).[36]

Climate chart for Las Vegas

Most of the annual precipitation falls during the winter. February, the wettest month, averages only four days of measurable rain. The mountains immediately surrounding the Las Vegas Valley accumulate snow every winter, but significant accumulation within the city is rare, although moderate accumulations occur every few years. The most recent accumulations occurred on February 18, 2019, when parts of the city received about 1 to 2 inches (2.5 to 5.1 cm) of snow[41] and on February 20 when the city received almost 0.5 inches (1.3 cm).[42] Other recent significant snow accumulations occurred on December 25, 2015, and December 17, 2008.[43] Unofficially, Las Vegas's largest snowfall on record was the 12 inches (30 cm) that fell in 1909.[44] In recent times, ice days have not occurred, although 29 °F (−2 °C) was measured in 1963.[36] On average the coldest day is 44 °F (7 °C).[36]

The highest temperature officially observed for Las Vegas is 120 °F (48.9 °C), as measured at [Harry Reid International Airport](#) on July 7, 2024.[36][45] The lowest temperature was 8 °F (−13 °C), recorded on two days: January 25, 1937, and January 13, 1963.[36] The official record hot daily minimum is 95 °F (35 °C) on July 19, 2005, and July 1, 2013. The official record cold daily maximum is 28 °F (−2 °C) on January 8 and 21, 1937.[36] July 2024 was the hottest month ever recorded in Las Vegas, with its highest recorded mean daily average temperature over the month of 99.9 °F (38 °C), its highest recorded mean daily maximum temperature of 111.5 °F (44 °C), and its highest recorded mean nightly minimum temperature of 88.3 °F (31 °C).[46]

Due to concerns about **climate change** in the wake of a 2002 drought, daily water consumption has been reduced from 314 US gallons (1,190 L) per resident in 2003 to around 205 US gallons (780 L) in 2015.^[47]

2020 census

[edit]

According to the [2020 United States census](#), the city of Las Vegas had 644,883 people living in 244,429 [households](#). The racial composition of the City of Las Vegas was 49.2% [white](#), 11.9% [black](#), 1.1% [American Indian or Alaska Native](#), 6.9% Asian, [Hispanic or Latino](#) residents of any race were 34.1% and 16.2% from [two or more races](#). 40.8% were [non-Hispanic white](#).[\[53\]](#)

Approximately 5.8% of residents are under the age of five, 22.8% under the age of eighteen and 15.6% over 65 years old. Females are 50.0% of the total population.[\[53\]](#)

Map of racial distribution in the Las Vegas area, 2020 U.S. Census. Each dot is 25 people: [•](#) White

[•](#) Black

[•](#) Asian

[•](#) Hispanic

[•](#) Native American

[•](#) Mixed or Other

From 2019 to 2023, Las Vegas had approximately 244,429 [households](#), with an average of 2.63 persons per household. About 55.7% of housing units were owner-occupied, and the median value of owner-occupied housing was \$395,300. Median gross rent during this period was \$1,456 per month (in 2023 dollars).[\[53\]](#)

The median **household income** in Las Vegas from 2019 to 2023 was \$70,723, while the **per capita** income was \$38,421 (in 2023 dollars). Approximately 14.2% of the population lived below the poverty line during the same period.[53]

Residents over 25 years old with a **high school diploma** were 85.8% of the population with 27.3% having attained a **bachelor's degree or higher**. [53]

About 33.0% of residents aged 5 and older speak a language other than English at home. 20.9% of residents are foreign-born.[53]

The mean travel time to work for residents aged 16 and older was approximately 25.8 minutes between 2019 and 2023. The vast majority of households in Las Vegas are **digitally connected**, with 95.6% having a computer and 89.1% subscribing to **broadband internet** services .

Filipinos make up the largest Asian population in Las Vegas. 31,931 Filipinos live within the city limits, making up 4.8% of the population.[54] In the Las Vegas area as a whole, there are 162,802 Filipinos, making up 7% of the population.[55] Native Hawaiians are also a major demographic in the city, numbering 20,829 in the city and surrounding suburbs,[56] with some Hawaiians and Las Vegas residents calling the city the "ninth island of **Hawaii**" due to the major influx of Hawaiians to Vegas.[57]

According to a 2004 study, Las Vegas has one of the highest divorce rates.[58][59] The city's high divorce rate is not wholly due to Las Vegans themselves getting divorced. Compared to other states, Nevada's nonrestrictive requirements for divorce result in many couples temporarily moving to Las Vegas in order to get divorced.[60] Similarly, Nevada marriage requirements are equally lax resulting in one of the highest marriage rates of U.S. cities, with many licenses issued to people from outside the area (see **Las Vegas weddings**).[60]

2010 census

[**edit**]

According to the **2010 Census**, the city of Las Vegas had a population of 583,756. The city's racial composition had shifted slightly, with 47.91% of the population identifying

as White alone (non-Hispanic), 10.63% as Black or African American alone (non-Hispanic), 0.41% as Native American or Alaska Native alone (non-Hispanic), 5.93% as Asian alone (non-Hispanic), 0.53% as Pacific Islander alone (non-Hispanic), 0.19% as Other Race alone (non-Hispanic), and 2.91% as Mixed race or Multiracial (non-Hispanic). Hispanic or Latino individuals of any race represented 31.50% of the population.^[51]

2000 census

^[edit]

According to the **2000 census**, Las Vegas had a population of 474,434 people. The racial makeup of the city was 58.52% White alone (non-Hispanic), 10.19% Black or African American alone (non-Hispanic), 0.51% Native American or Alaska Native alone (non-Hispanic), 4.72% Asian alone (non-Hispanic), 0.41% Pacific Islander alone (non-Hispanic), 0.14% Other Race alone (non-Hispanic), and 2.52% Mixed race or Multiracial (non-Hispanic). Hispanic or Latino individuals of any race made up 23.81% of the population.^[50]

Historical racial profile	2020 ^[61]	2010 ^[62]	2000 ^[63]	1990 ^[64]	1970 ^[64]
White	46.0%	62.1%	69.9%	78.4%	87.6%
—Non-Hispanic Whites	40.4%	47.9%	58.0%	72.1%	83.1% ^[c]

Asian	7.2%	6.1%	4.8%	3.6%	0.7%

Economy

^[edit]

The primary drivers of the Las Vegas economy are tourism, **gaming**, and conventions, which in turn feed the retail and restaurant industries.

Tourism

[[edit](#)]

The [Golden Nugget Las Vegas](#)

The [Las Vegas Strip](#), primarily located in [Paradise](#)

A view of the [Las Vegas Valley](#) looking north from the [Stratosphere Tower](#)

The major attractions in Las Vegas are the casinos and the hotels, although in recent years other new attractions have begun to emerge.

Most casinos in the downtown area are on [Fremont Street](#), with [The STRAT Hotel, Casino & Skypod](#) as one of the few exceptions. [Fremont East](#), adjacent to the Fremont Street Experience, was granted variances to allow bars to be closer together, similar to the [Gaslamp Quarter](#) of San Diego, the goal being to attract a different demographic than the Strip attracts.

Downtown casinos

[[edit](#)]

Main article: [Downtown \(Nevada gaming area\)](#)

The [Golden Gate Hotel and Casino](#), downtown along the Fremont Street Experience, is the oldest continuously operating hotel and casino in Las Vegas; it opened in 1906 as the Hotel Nevada.

In 1931, the [Northern Club](#) (now the [La Bayou](#)) opened.^{[65][66]} The most notable of the early casinos may have been [Binion's Horseshoe](#) (now [Binion's Gambling Hall and Hotel](#)) while it was run by [Benny Binion](#).

[Boyd Gaming](#) has a major presence downtown operating the [California Hotel & Casino](#), the [Fremont Hotel & Casino](#), and the [Main Street Casino](#). The [Four Queens](#) also operates downtown along the Fremont Street Experience.

Downtown casinos that have undergone major renovations and revitalization in recent years include the [Golden Nugget Las Vegas](#), [The D Las Vegas](#) (formerly Fitzgerald's), the [Downtown Grand Las Vegas](#) (formerly Lady Luck), the [El Cortez Hotel & Casino](#), and the [Plaza Hotel & Casino](#).^[67]

In 2020, [Circa Resort & Casino](#) opened, becoming the first all-new hotel-casino to be built on Fremont Street since 1980.^[68]

Las Vegas Strip

[[edit](#)]

Main article: [Las Vegas Strip](#)

The center of the gambling and entertainment industry is the [Las Vegas Strip](#), outside the city limits in the surrounding unincorporated communities of [Paradise](#) and [Winchester](#) in Clark County. Some of the largest casinos and buildings are there.^[69]

Welcome signs

[[edit](#)]

The original Welcome to Fabulous Las Vegas sign

Gateway Arches

In 1929, the city installed a welcome arch over [Fremont Street](#), at the corner of Main Street.^{[70][71][72]} It remained in place until 1931.^{[73][74]}

In 1959, the 25-foot-tall (7.6 m) [Welcome to Fabulous Las Vegas sign](#) was installed at the south end of the [Las Vegas Strip](#). A replica welcome sign, standing nearly 16 feet (4.9 m) tall, was installed within city limits in 2002, at [Las Vegas Boulevard](#) and Fourth Street.^{[75][76][77]} The replica was destroyed in 2016, when a pickup truck crashed into it.^[78]

In 2018, the city approved plans for a new gateway landmark in the form of neon arches. It was built within city limits, in front of the [Strat](#) resort and north of [Sahara Avenue](#).^[79] The project, built by [YESCO](#), cost \$6.5 million and stands 80 feet (24 m) high.^[80] Officially known as the Gateway Arches, the project was completed in 2020. The steel arches are blue during the day, and light up in a variety of colors at night.^[81]

Also located just north of the Strat are a pair of giant neon showgirls, initially added in 2018 as part of a \$400,000 welcome display. The original showgirls were 25 feet (7.6 m) tall, but were replaced by new ones in 2022, rising 50 feet (15 m).^{[82][83]} The originals were refurbished following weather damage and installed at the [Las Vegas Arts District](#).^{[83][84]}

Development

[[edit](#)]

When [The Mirage](#) opened in 1989, it started a trend of major resort development on the Las Vegas Strip outside of the city. This resulted in a drop in tourism in the downtown area, but many recent projects have increased the number of visitors to downtown.

An effort has been made by city officials to diversify the economy by attracting health-related, high-tech and other commercial interests. No state tax for individuals or corporations, as well as a lack of other forms of business-related taxes, have aided the success of these efforts.^[85]

The Fremont Street Experience was built in an effort to draw tourists back to the area and has been popular since its startup in 1995.

The city conducted a land-swap deal in 2000 with [Lehman Brothers](#), acquiring 61 acres (25 ha) of property near downtown Las Vegas in exchange for 91 acres (37 ha) of the Las Vegas Technology Center.^[86] In 2004, Las Vegas Mayor [Oscar Goodman](#) announced that the area would become home to [Symphony Park](#) (originally called "Union Park"^[87]), a mixed-use development. The development is home to the [Cleveland Clinic Lou Ruvo Center for Brain Health](#), [The Smith Center for the Performing Arts](#), the [Discovery Children's Museum](#), the Las Vegas [Chamber of Commerce](#), and four residential projects totaling 600 residential units as of 2024.^[88]

[World Market Center](#) Building A

In 2005, the [World Market Center](#) opened, consisting of three large buildings taking up 5,400,000 square feet (500,000 m²). Trade shows for the furniture and furnishing industries are held there semiannually.^[89]

Also nearby is the Las Vegas North Premium Outlets. With a second expansion, completed in May 2015, the mall currently offers 175 stores.^[90]

City offices moved to a new [Las Vegas City Hall](#) in February 2013 on downtown's Main Street. The former city hall building is now occupied by the corporate headquarters for the online retailer [Zappos.com](#), which opened downtown in 2013. Zappos CEO [Tony Hsieh](#) took an interest in the urban area and contributed \$350 million toward a revitalization effort called the Downtown Project.^{[91][92]} Projects funded include Las Vegas's first independent bookstore, [The Writer's Block](#).^[93]

Other industries

^[edit]

A number of new industries have moved to Las Vegas in recent decades. [Zappos.com](#) (now an [Amazon](#) subsidiary) was founded in San Francisco but by 2013 had moved its headquarters to downtown Las Vegas. [Allegiant Air](#), a low-cost air carrier, launched in 1997 with its first hub at [Harry Reid International Airport](#) and headquarters in nearby Summerlin.

[Planet 13 Holdings](#), a cannabis company, opened the world's largest [cannabis dispensary](#) in Las Vegas at 112,000 sq ft (10,400 m²).^{[94][95]}

Effects of growth on water supply

^[edit]

A growing population means the Las Vegas Valley used 1.2 billion US gal (4.5 billion L) more water in 2014 than in 2011. Although water conservation efforts implemented in the wake of a 2002 drought have had some success, local [water consumption](#) remains

30 percent greater than in Los Angeles, and over three times that of San Francisco metropolitan area residents. The [Southern Nevada Water Authority](#) is building a \$1.4 billion tunnel and pumping station to bring water from [Lake Mead](#), has purchased water rights throughout Nevada, and has planned a controversial \$3.2 billion [pipeline](#) across half the state. By law, the Las Vegas Water Service District "may deny any request for a water commitment or request for a water connection if the District has an inadequate supply of water." But limiting growth on the basis of an inadequate water supply has been unpopular with the casino and building industries.^[47]

Culture

[\[edit\]](#)

Main article: [Las Vegas Valley § Culture and the arts](#)

See also: [List of Las Vegas landmarks](#)

"Las Vegas culture" redirects here. For the ancient Ecuadorian civilization, see [Las Vegas culture \(archaeology\)](#).

The [Smith Center for the Performing Arts](#) & Discovery Museum

[Symphony Park](#) in [Downtown Las Vegas](#)

The city is home to several museums, including the [Neon Museum](#) (the location for many of the historical signs from Las Vegas's mid-20th century heyday), The [Mob Museum](#), the [Las Vegas Natural History Museum](#), the Discovery Children's Museum, the Nevada State Museum and the Old Las Vegas Mormon Fort State Historic Park.

The city is home to an extensive [Downtown Arts District](#), which hosts numerous galleries and events including the annual Las Vegas Film Festival. "First Friday" is a monthly celebration that includes arts, music, special presentations and food in a section of the city's downtown region called 18b, The Las Vegas Arts District.^[96] The festival extends into the Fremont East Entertainment District.^[97] The Thursday evening before First Friday is known in the arts district as "Preview Thursday," which highlights new gallery exhibitions throughout the district.^[98]

The [Las Vegas Academy of International Studies, Performing and Visual Arts](#) is a [Grammy](#) award-winning [magnet school](#) located in [downtown Las Vegas](#). The [Smith Center for the Performing Arts](#) is downtown in [Symphony Park](#) and hosts various Broadway shows and other artistic performances.

Las Vegas has earned the moniker "Gambling Capital of the World," as it has the world's most land-based casinos.^[99] The city is also host to more [AAA Five Diamond](#) hotels than any other city in the world.^[100]

Sports

[\[edit\]](#)

Main article: [Sports in the Las Vegas metropolitan area](#)

See also: [Nevada § Sports](#)

[Allegiant Stadium](#) is the home of the [Las Vegas Raiders](#) NFL football team.

The Las Vegas Valley is the home of three [major professional](#) teams: the [National Hockey League](#) (NHL)'s [Vegas Golden Knights](#), an [expansion team](#) that began play in the [2017–18 NHL season](#) at [T-Mobile Arena](#) in nearby [Paradise](#),^[101] the [National Football League](#) (NFL)'s [Las Vegas Raiders](#), who [relocated](#) from [Oakland, California](#), in 2020 and play at [Allegiant Stadium](#) in [Paradise](#),^[102] and the [Women's National Basketball Association](#) (WNBA)'s [Las Vegas Aces](#), who play at the [Mandalay Bay Events Center](#). The [Oakland Athletics](#) of [Major League Baseball](#) (MLB) will [move to Las Vegas](#)

by 2028.^{[103][104]}

Two minor league sports teams play in the Las Vegas area. The Las Vegas Aviators of the Pacific Coast League, the Triple-A farm club of the Athletics, play at Las Vegas Ballpark in nearby Summerlin.^[105] The Las Vegas Lights FC of the United Soccer League play in Cashman Field in Downtown Las Vegas.^{[106][107]}

The mixed martial arts promotion, Ultimate Fighting Championship (UFC), is headquartered in Las Vegas and also frequently holds fights in the city at T-Mobile Arena and at the UFC Apex training facility near the headquarters.^[108]

North of Las Vegas is the Las Vegas Motor Speedway, a 1.5 mile tri-oval constructed in 1972 that hosts two NASCAR Cup Series races each year, one in the spring and a playoff race in the fall.^[109]

Parks and recreation

[\[edit\]](#)

Spanish Trail Country Club, a 27-hole golf course

The city's parks and recreation department operates 78 regional, community, neighborhood, and pocket parks; four municipal swimming pools, 11 recreational centers, four active adult centers, eight cultural centers, six galleries, eleven dog parks, and four golf courses: Angel Park Golf Club, Desert Pines Golf Club, Durango Hills Golf Club, and the Las Vegas Municipal Golf Course.[\[110\]](#)

It is also responsible for 123 playgrounds, 23 softball fields, 10 football fields, 44 soccer fields, 10 dog parks, six community centers, four senior centers, 109 skate parks, and six swimming pools.[\[111\]](#)

Government

[\[edit\]](#)

[Las Vegas City Hall](#) in downtown Las Vegas

The city of Las Vegas has a [council–manager government](#).[\[112\]](#) The mayor sits as a council member–at–large and presides over all [city council](#) meetings.[\[112\]](#) If the mayor

cannot preside over a city council meeting, then the Mayor **pro tempore** is the **presiding officer** of the meeting until the Mayor returns to his/her seat.[113] The city manager is responsible for the administration and the day-to-day operations of all **municipal services** and city departments.[114] The city manager maintains intergovernmental relationships with federal, state, county and other local governments.[114]

Out of the 2,265,461 people in Clark County as of the 2020 Census, approximately 1,030,000 people live in **unincorporated Clark County**, and around 650,000 live in incorporated cities such as **North Las Vegas**, **Henderson** and **Boulder City**. [115] Las Vegas and Clark County share a police department, the **Las Vegas Metropolitan Police Department**, which was formed after a 1973 merger of the **Las Vegas Police Department** and the **Clark County Sheriff's Department**. [116] North Las Vegas, Henderson, Boulder City, Mesquite, UNLV and CCSD have their own police departments. [117]

The **federally-recognized Las Vegas Tribe of Paiute Indians** (**Southern Paiute**: Nuvagantucimi) occupies a 31-acre (130,000 m²) **reservation** just north downtown between **Interstate-15** and Main Street. [118][119][120]

Downtown is the location of **Lloyd D. George Federal District Courthouse** [121] and the Regional Justice Center, [122] draws numerous companies providing bail, marriage, divorce, tax, **incorporation** and other legal services.

2008	58.8% 118,827	39.2% 79,207	1.89% 22,436

Primary and secondary public education is provided by the Clark County School District.[130]

Public higher education

[edit]

Public higher education is provided by the Nevada System of Higher Education (NSHE). Public institutions serving Las Vegas include the University of Nevada, Las Vegas (UNLV), the College of Southern Nevada (CSN), Nevada State University (NSU), and the Desert Research Institute (DRI).[131]

UNLV is a public, land-grant, **R1 research** university and is home to the **Kirk Kerkorian School of Medicine**^[132] and the **William S. Boyd School of Law**, the only law school in Nevada.^[133] The university's campus is urban and located about two miles east of the Las Vegas strip. The Desert Research Institute's southern campus sits next to UNLV, while its northern campus is in Reno.^[134]

CSN, with campuses throughout Clark County,^[135] is a **community college** with one of the largest enrollments in the United States.^[136] In unincorporated Clark County, CSN's Charleston campus is home to the headquarters of **Nevada Public Radio** (**KNPR**), an **NPR** member station.^[137]^[138]

Private higher education

[\[edit\]](#)

Touro University Nevada located in **Henderson** is a non-profit, private institution primarily focusing on medical education.^[139] Other institutions include a number of **for-profit** private schools (e.g., **Le Cordon Bleu College of Culinary Arts**, **DeVry University**, among others).^[140]

Media

[\[edit\]](#)

Newspapers

[\[edit\]](#)

Las Vegas *Review-Journal* sign

- *Las Vegas Review-Journal*, the area's largest daily newspaper, is published every morning. It was formed in 1909 but has roots back to 1905. It is the largest newspaper in Nevada and is ranked as one of the top 25 newspapers in the United States by circulation. In 2000, the *Review-Journal* installed the largest newspaper printing press in the world. It cost \$40 million, weighs 910 tons and consists of 16 towers.[141] Until his death in January 2021, the newspaper was owned by casino magnate **Sheldon Adelson**, who purchased it for \$140 million in December 2015. In 2018, the *Review-Journal* received the **Sigma Delta Chi Award** from the **Society of Professional Journalists** for reporting the **Oct 1 mass shooting** on the Las Vegas Strip. In 2018 and 2022, *Editor and Publisher* magazine named the *Review-Journal* as one of 10 newspapers in the United States "doing it right." [142][143]
- *Las Vegas Sun*, based in neighboring **Henderson**, is a daily newspaper. Although independently published, the print edition is distributed as a section inside the *Review-Journal*. The *Sun* is owned by the Greenspun family and is part of the **Greenspun Media Group**. It was founded independently in 1950 and in 1989 entered into a **Joint Operating Agreement** with the *Review-Journal*, which runs through 2040. The *Sun* has been described as "politically liberal." [144] In 2009, the *Sun* was awarded a **Pulitzer Prize for Public Service** for coverage of the high death rate of construction workers on the Las Vegas Strip amid lax enforcement of regulations. [145][146]
- *Las Vegas Weekly*, based in neighboring Henderson, is a free **alternative weekly** newspaper. It covers Las Vegas arts, entertainment, culture and news. *Las Vegas Weekly* was founded in 1992 and is published by the Greenspun Media Group.

Broadcast

[edit]

Las Vegas is served by 10 full power television stations and 46 radio stations. The area is also served by two NOAA Weather Radio transmitters (162.55 MHz located in Boulder City and 162.40 MHz located on **Potosi Mountain**).

Transportation

[\[edit\]](#)

Main article: [Transportation in Las Vegas](#)

Regional Transportation Commission (RTC) provides public bus transportation.

[Harry Reid International Airport](#) provides private and public aviation services to the city.

Inside Terminal 3 at Harry Reid International Airport in Paradise

RTC Transit is a public transportation system providing bus service throughout Las Vegas, Henderson, North Las Vegas and other areas of the valley. Inter-city bus service to and from Las Vegas is provided by **Greyhound**, **BoltBus**, **Orange Belt Stages**, **Tufesa**, and several smaller carriers.[147]

Amtrak trains have not served Las Vegas since the service via the **Desert Wind** at **Las Vegas station** ceased in 1997, but **Amtrak California** operates **Amtrak Thruway** dedicated service between the city and its passenger rail stations in **Bakersfield, California**, as well as **Los Angeles Union Station** via **Barstow**. [148]

High-speed rail project **Brightline West** began construction in 2024 to connect Brightline's **Las Vegas station** and the **Rancho Cucamonga station** in **Greater Los Angeles**. [149]

The **Las Vegas Monorail** on the Strip was privately built, and upon bankruptcy taken over by the **Las Vegas Convention and Visitors Authority**. [150]

Silver Rider Transit operates three routes within Las Vegas, offering connections to Laughlin, [151] Mesquite, [152] and Sandy Valley. [153]

The **Union Pacific Railroad** is the only **Class I railroad** providing rail freight service to the city. Until 1997, the Amtrak **Desert Wind** train service ran through Las Vegas using the Union Pacific Railroad tracks.

In March 2010, the RTC launched **bus rapid transit** link in Las Vegas called the *Strip & Downtown Express* with limited stops and frequent service that connects downtown Las Vegas, the Strip and the Las Vegas Convention Center. Shortly after the launch, the RTC dropped the **ACE** name. [154]

In 2016, 77.1 percent of working Las Vegas residents (those living in the city, but not necessarily working in the city) commuted by driving alone. About 11 percent commuted via carpool, 3.9 percent used public transportation, and 1.4 percent walked. About 2.3 percent of Las Vegas commuters used all other forms of transportation, including taxi, bicycle, and motorcycle. About 4.3% of working Las Vegas residents worked at home. [155] In 2015, 10.2 percent of city of Las Vegas households were without a car, which increased slightly to 10.5 percent in 2016. The national average was

8.7 percent in 2016. Las Vegas averaged 1.63 cars per household in 2016, compared to a national average of 1.8 per household.

With some exceptions, including [Las Vegas Boulevard](#), [Boulder Highway \(SR 582\)](#) and [Rancho Drive \(SR 599\)](#), the majority of surface streets in Las Vegas are laid out in a grid along [Public Land Survey System section lines](#). Many are maintained by the [Nevada Department of Transportation](#) as [state highways](#). The street numbering system is divided by the following streets:

- Westcliff Drive, [US 95 Expressway](#), [Fremont Street](#) and [Charleston Boulevard](#) divide the north–south block numbers from west to east.
- [Las Vegas Boulevard](#) divides the east–west streets from the [Las Vegas Strip](#) to near the Stratosphere, then Main Street becomes the dividing line from the Stratosphere to the North Las Vegas border, after which the Goldfield Street alignment divides east and west.
- On the east side of Las Vegas, block numbers between [Charleston Boulevard](#) and Washington Avenue are different along Nellis Boulevard, which is the eastern border of the city limits.

Interstates 15, 11, and US 95 lead out of the city in four directions. Two major freeways – [Interstate 15](#) and [Interstate 11/U.S. Route 95](#) – cross in downtown Las Vegas. I–15 connects Las Vegas to Los Angeles, and heads northeast to and beyond Salt Lake City. I–11 goes northwest to the [Las Vegas Paiute Indian Reservation](#) and southeast to [Henderson](#) and to the [Mike O'Callaghan–Pat Tillman Memorial Bridge](#), where from this point I–11 will eventually continue along [US 93](#) towards [Phoenix, Arizona](#). US 95 (and eventually I–11) connects the city to northwestern Nevada, including [Carson City](#) and [Reno](#). US 93 splits from I–15 northeast of Las Vegas and goes north through the eastern part of the state, serving [Ely](#) and [Wells](#). US 95 heads south from US 93 near Henderson through far eastern California. A [partial beltway](#) has been built, consisting of [Interstate 215](#) on the south and [Clark County 215](#) on the west and north. Other radial routes include [Blue Diamond Road \(SR 160\)](#) to [Pahrump](#) and [Lake Mead Boulevard \(SR 147\)](#) to [Lake Mead](#).

East–west roads, north to south^[156]

- Ann Road

-  **Craig Road (SR 573)**
-  **Cheyenne Avenue (SR 574)**
- **Smoke Ranch Road**
-  **Washington Avenue (SR 578)**
-  **Summerlin Parkway (SR 613)**
-  **Bonanza Road (SR 579)**
-  **Charleston Boulevard (SR 159)**
-  **Sahara Avenue (SR 589)**

North–south roads, west to east

- **Fort Apache Road**
- **Durango Drive**
- **Buffalo Drive**
-  **Rainbow Boulevard (SR 595)**
-  **Jones Boulevard (SR 596)**
- **Decatur Boulevard**
- **Valley View Boulevard**
-  **Rancho Drive**
- **Maryland Parkway**
-  **Eastern Avenue (SR 607)**
- **Pecos Road**
-  **Lamb Boulevard (SR 610)**
-  **Nellis Boulevard (SR 612)**

Harry Reid International Airport handles international and domestic flights into the Las Vegas Valley. The airport also serves private aircraft and freight/cargo flights. Most general aviation traffic uses the smaller **North Las Vegas Airport** and **Henderson Executive Airport**.

Reviews for Rock N Block Turf N Hardscapes

Rob Foster

(5)

We have been working with AI and the team for many years (8) to be exact. We have had the pleasure of working with many of their clients throughout this time and we absolutely love how their clients are so pleased with the work they do and the outcome of the projects! The sales team and staff have been very supportive and professional and that's hard to come by. We look forward to many more years of this partnership with a very positive and motivated company that's always looking out for the best interests of the community!

Dawna OgleYohe

My initial contact was with Ray, whom did an excellent job giving me an estimate on what I wanted done in my small yard and walkway., the guys that came out and did the work were superior. They did an excellent job. I'm very pleased with this company. I will highly recommend them to family and friends, and I will be using them in the near future for other little projects.
